Portrait Finishing

- Deluxe Finish:** A protective spray seals all prints. All 4x5 and 5x7 prints are in folders and all 8x10 prints and larger are mounted and ready for framing.
- Matte Finish:** A beautiful, protective matte laminate that requires no glass when framing.
- Metal Finish:** Glossy finish on metal hard surface that stands out 1/2" from the wall. No frame needed.
- Canvas Wrapped:** Canvas material hand stretched on a wooden frame that gives a texture similar to a painting. 3/4" or 1.5" thickness.
- Studio Logo:** All wallets and prints are printed with our Hicks logo. No logo fee is \$15.
- Ultimate Retouching:** Basic retouching is included on all images. For only \$15 per image, we can remove moles or scars, fix stray hairs, enhance facial features, fix glass glare, or correct flaws in clothing. Extensive artwork fees are quoted on a per job basis.

Photo Tip

Lenses in glasses distort the shape of your eyes and face when photographed. To prevent distortion, borrow an empty pair of frames from your optometrist or remove the lenses.

An ultimate retouching fee will automatically be charged to correct glare from glasses when the lenses are not removed.
